

**REMARKS**

Claims 1, 7-14, 16-27, 29-38, and 40-45 are pending in the application. Claims 11-14, 17, 19, 21, 23-27, 29-38, and 40-45 are withdrawn. In the Notice of Non-Compliant Amendment mailed on August 19, 2011, the Examiner indicated that claims 11-14, 17, 19, and 41 did not list the proper status identifier of "Withdrawn" and that claims 21, 23, and 42-45 did not list the proper status identifier of "Withdrawn-Currently Amended." In response, Applicants have amended claims 11-14, 17, 19, 21, 23, and 41-45 to list the proper status identifiers of the respective claims. In addition, the amendments to claims 1, 7, 20-23, and 42-45 made in the Response to Non-Final Office Action filed on July 29, 2011 have also been presented in the pending claim set for entry into the application. Support for the amendments to the claims can be found throughout the specification and claims as filed. No new matter has been added.

Amendment or cancellation of claims should in no way be construed as an acquiescence, narrowing, or surrender of any subject matter. Amendments or cancellations have been made not only to point out with particularity and to claim the present invention, but also to expedite prosecution of the present application. Applicants reserve the option to prosecute the originally filed claims further, or similar ones, in the instant or subsequently filed patent applications. Applicants also expressly reserve the right to prosecute non-elected claims and species in other patent applications claiming the benefit of the filing date of this application. Furthermore, Applicants understand that upon allowance of a generic claim, they will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of any allowed generic claims.
